

Richárd Krisztián Csáky

(born Richárd Krisztián Csáky, on 19 December 1995 in Budapest, Hungary) having completed an approved master's degree programme and fulfilled the academic requirements of the

Budapest University of Technology and Economics

was duly admitted to the degree of Master of Science in Computer Science Engineering and has qualified as a(n)

Computer Science Engineer.

The duration of the programme of study was 4 semesters.

Overall classification of the qualification: excellent with highest honours

Budapest, 25 June 2020

.....
Dean

DIPLOMA SUPPLEMENT

Number of diploma: BME-4774/2020

1. HOLDER OF THE QUALIFICATION

- | | |
|--|--|
| 1.1. Family name(s)
Csáky | 1.2. Given name(s)
Richárd Krisztián |
| 1.3. Country and place of birth, Date of birth (day/month/year)
Hungary, Budapest, 19.12.1995 | 1.4. Student identification number or code (if available)
75724423428 |
| | 1.5. Registration number
T097081/FI23344/5N-M8-2018 |

2. INFORMATION ON THE QUALIFICATION

- 2.1. Name of qualification and (if applicable) inherent title
Computer Science Engineer
- 2.2. Main field(s) of study for the qualification
Computer Science Engineering
- 2.3. Name, status and identification number of awarding institution
Budapest University of Technology and Economics, FI23344, state university, accredited by the Hungarian Accreditation Committee with its resolution 2014/9/VIII/1.
- 2.4. Name and status of institution (if different from 2.3) administering studies
- 2.5. Language(s) of instruction/examination
Hungarian

3. INFORMATION ON THE LEVEL OF THE QUALIFICATION

- | | |
|--|--|
| 3.1. Level of qualification, EQF level
Master (second cycle), Level 7 | 3.2. Official length of program
4 semesters |
| 3.3. Access requirements
Diploma with college degree or diploma with university degree. | |

4. INFORMATION ON THE CONTENTS AND RESULTS GAINED

4.1. PROGRAM REQUIREMENTS

4.1.1. Program requirements act number

Decree 15/2006 (IV.3.) OM from the study and graduation requirements of the Majors in Bachelor's and Master's Programs.

4.1.2. Aim of study

Education of computer engineers

4.1.3. Required number of credit points

120

4.1.4. System of knowledge assessment

Examinations, midterm control, thesis and its defending at public final examination.

4.1.5. Required professional practice, credit value

4.2. PROGRAM DETAILS AND THE INDIVIDUAL GRADES / MARKS / CREDITS OBTAINED

4.2.1. Knowledge acquired during the program of study (requirement designation, credit points, grades)

Subject	Subject code	Lessons	Requirement	Credit	Grade	Term
Programming 3	BMEVIIIAB00	W: 2/0/2	Mid-term mark	5	Excellent	2018/19/1
Software Architectures	BMEVIAUMA06	W: 3/0/0	Mid-term mark	4	Excellent	2018/19/1
Project Laboratory 1	BMEVIAUML00	W: 0/0/5	Mid-term mark	5	Excellent	2018/19/1
Information Theory	BMEVISZMA03	W: 3/0/0	Mid-term mark	4	Excellent	2018/19/1
Computer Security	BMEVIHIMA06	W: 2/1/0	Exam	4	Excellent	2018/19/1
Engineering Management	BMEVITMMB03	W: 4/0/0	Exam	4	Good	2018/19/1
Advanced Mathematics for Informaticians - Applied Algebra and Mathematical Logic	BMETE90MX57	W: 4/0/0	Exam	4	Good	2018/19/1
Coding Technology	BMEVIHIAB00	W: 3/0/0	Exam	4	Good	2018/19/1
Mobile Software Laboratory	BMEVIAUMB02	W: 0/0/3	Mid-term mark	4	Excellent	2018/19/2
Business Intelligence Laboratory	BMEVIAUMB00	W: 0/0/3	Mid-term mark	4	Excellent	2018/19/2
Mobile Software Platforms	BMEVIAUMA05	W: 2/1/0	Mid-term mark	4	Satisfactory	2018/19/2
Project Laboratory 2	BMEVIAUML01	W: 0/0/5	Mid-term mark	5	Excellent	2018/19/2
Software Development Methods and Paradigms	BMEVIAUMA00	W: 2/1/0	Exam	4	Excellent	2018/19/2
Software Techniques	BMEVIAUJAB00	W: 2/0/2	Exam	5	Excellent	2018/19/2
Service Oriented System Integration	BMEVIHIMA04	W: 2/1/0	Exam	4	Excellent	2018/19/2
Mobile Software System Development	BMEVIAUMB01	W: 2/1/0	Exam	4	Excellent	2018/19/2
Distributed Systems and Domain-Specific Modeling	BMEVIAUMA01	W: 2/1/0	Exam	4	Pass	2018/19/2
Theory of Algorithms	BMEVISZAB03	W: 2/2/0	Exam	5	Good	2018/19/2
Advanced Mathematics for Informatics - System Optimisation	BMEVISZMA02	W: 4/0/0	Exam	4	Pass	2018/19/2
Diploma Thesis Design 2	BMEVIAUMT01	W: 0/10/0	Mid-term mark	20	Excellent	2019/20/2

Subject	Subject code	Lessons	Requirement	Credit	Grade	Term
Internship	BMEVIAUMS00	S:	Signature	0	Signed	2019/20/1

Software and Systems Verification	BMEVIMIMA01	W: 2/1/0	Exam	4	Excellent	2019/20/1
Databases	BMEVITMAB04	W: 2/1/1	Exam	5	Good	2019/20/1

*Lessons per week (W) / semester (S) *If the number of lessons contains / marks, like in le/p/ly, its meaning is: number of lectures/class practices/laboratories.

Number of credits: 143

4.2.2. Knowledge acquired earlier and during parallel or exchange programmes of study (requirement designation, credit points, grades)

Subject name	Subject code	Recognised	Requirement	Credit	Grade	Date

Number of credits: 0

4.2.3. Recognised knowledge acquired informally or during work and other experience (requirement designation, credit points, grades)

Subject name	Subject code	Recognised	Requirement	Credit	Grade	Date

Number of credits: 0

4.3. Grading scheme and, if available, grade distribution guidance All grades at least pass (2).

4.4. Overall classification of the qualification

excellent with highest honours (4,73)

5. INFORMATION ON THE ENTITLEMENT OF THE QUALIFICATION

5.1. Access to further study

Access to doctoral (PhD) studies

5.2. Professional status (if applicable)

6 ADDITIONAL INFORMATION

6.1. Information concerning the holder of the diploma

Csáky Richárd Krisztián has been awarded by 3rd place with the research work entitled by "The Gutenberg Dialog Dataset for Neural Conversational Modeling" at the Student's Scientific Conference organized by the Budapest University of Technology and Economics in 12 November 2019 in session entitled Neural networks Section

6.2. Information on the Institution

The predecessor in title of the Budapest University of Technology and Economics (BME) was founded in 1782. It is a state university, presently the largest technical university in Hungary. The faculties: Civil Engineering, Mechanical Engineering, Architecture, Chemical Technology and Biotechnology, Electrical Engineering and Informatics, Transportation Engineering and Vehicle Engineering, Natural Sciences, Economic and Social Sciences. In 2015 at the BME 21 Bachelor's degree program, 60 Master's degree program and 75 postgraduate specialist training course started. Presently, there are about 17000 full-time, (including 1200 foreign) students, 1600 corresponding students, and 1500 students participate in distance learning. There are 460 PhD/DLA students. The university has about 1050 staff members, including 120 full professors. The courses are offered in Hungarian, English, German and French. Home page: www.bme.hu/

<http://www.vik.bme.hu>

7. CERTIFICATION OF THE SUPPLEMENT

7.1. Date

09. 07. 2020

7.4. Official stamp or seal

7.2. Name and signature

Dr. Mihály Szabó

7.3. Capacity

Director of Central Academic Office

8. INFORMATION ON THE HUNGARIAN HIGHER EDUCATION SYSTEM

(modified in April 2020)

8.1. Types of Institutions and Institutional Control

The establishment and operation of higher education institutions are regulated by Act No. 204 of 2011 (National Higher Education Act). Operating within the legal framework of the National Higher Education Act, Hungarian higher education institutions are recognized state (public) or non-state (church or private) institutions. The list of recognized institutions is indicated in Annex 1 of the National Higher Education Act. Higher education studies are offered at two types of higher education institutions, *egyetem* (university) and *főiskola* (college). Universities and colleges may offer courses in all three training cycles. The programmes are identical at both types of institutions.

8.2. Types of Programmes and Degrees Awarded

The consecutive training cycles of higher education leading to a higher education degree are *alapképzés* (Bachelor course), *mesterképzés* (Master course) and *doktori képzés* (Doctoral course). In cases set by government decree or legislation, Master degrees can also be awarded after the completion of integrated, one-tier training.

In addition to the aforementioned, higher education institutions may conduct non-degree vocational higher education

programmes and postgraduate specialist trainings and may offer adult education within the framework of lifelong learning as well.

Higher education institutions apply a credit system based on the European Credit Transfer and Accumulation System. Accordingly, one credit stands for an average of 30 hours of student workload.

8.3. Approval/Accreditation of Programmes and Degrees

In the case of each vocational higher education programme, Bachelor and Master course, the programme and outcome requirements are set in legal regulations, i.e. the level of the training, the professional qualification that can be obtained and all the competencies the acquisition of which are the preconditions for obtaining the diploma in the given programme.

Upon request of the higher education institution, the Educational Authority – after having obtained the expert opinion of the Hungarian Accreditation Committee – licenses and registers the launching of all vocational higher education programmes, a Bachelor or Master courses or Doctoral schools. Also, the operating licenses of higher education institutions are revised by the Educational Authority in every 5 years, taking into account the expert opinion of the Hungarian Accreditation Committee. The above mentioned procedures apply for all recognized, state or non-state higher education institutions, except for religious studies, since the Hungarian Accreditation Committee and the Educational Authority have no competence over the quality assurance in this field. In the case of religious studies only the requirements in respect of infrastructure can be examined.

8.4. Organisation of Studies

Students studying in vocational higher education programmes, Bachelor and Master courses, as well as postgraduate specialist trainings complete their studies by passing a final examination. The final examination may consist of the defense of the degree thesis or diploma project, and additional oral, written or practical examinations.

8.4.1. Vocational Higher Education Programmes

The diploma obtained on completion of a vocational higher education programme testifies a vocational higher education qualification, but it is not per se an academic degree. A vocational higher education programme requires the completion of at least 120 credits, and the duration of the programme is a minimum of 4 semesters.

8.4.2. First/Second Cycle Degree Programmes

The first higher education degree is the *alapfokozat* (Bachelor degree) ending in a professional qualification. A Bachelor course requires the completion of 180 to 240 credits. The length of the programme is 6-8 semesters.

The second higher education degree is the *mesterfokozat* (Master degree) ending in a professional qualification. Based on a Bachelor course, Master courses require the completion of 60 to 120 credits. The length of the programme is 2-4 semesters.

8.4.3. Integrated Programmes

The integrated, one-tier programmes, which are based on the secondary school leaving examination (*érettségi vizsga*), lead to *mesterfokozat* (Master degree), have the length of 10-12 semesters and require the completion of 300 to 360 credits. Besides teacher education, religious studies and some programmes of arts, e. g. the following programmes are offered as integrated programmes: veterinary medicine, architecture, dentistry, pharmaceuticals, law and medicine.

8.4.4. Specialised Graduate Studies

Higher education institutions may also offer *szakirányú továbbképzés* (postgraduate specialist training) for Bachelor and Master degree holders in this type of a training. Through the completion of 60 to 120 credits a specialised qualification can be obtained. The length of the programme is 2-4 semesters.

8.4.5. Doctoral Programmes

Doctoral courses that began before 1 September 2016 require the completion of at least 180 credits. The duration of the programme is 36 months.

Doctoral courses beginning after 1 September 2016 require the completion of at least 240 credits. The duration of the programme is 8 semesters. During the programme, at the end of the fourth semester a complex examination must be completed. The doctoral thesis must be submitted within three years after the completion of the examination.

Regardless the date of entering a doctoral course, either within the framework of the doctoral course or following it, through a separate degree obtaining procedure, the scientific degree "Doctor of Philosophy" (abbreviated as PhD), or in

the field of art "Doctor of Liberal Arts" (abbreviated as DLA) may be obtained. The maximum duration of the degree obtaining procedure is 2 years.

8.5. Grading Scheme

The performance of students is generally assessed following a five-grade scale: excellent (5), good (4), satisfactory (3), pass (2), and fail (1) or a three-grade scale: pass with merit (5), pass (3), and unsatisfactory (1). Nevertheless, higher education institutions may also use other systems for assessment if they are comparable to those mentioned above.

8.6. Access to Higher Education Programmes

The ranking of students applying for higher education programmes is primarily based on their secondary school grades and their *érettségi vizsga* (secondary school leaving examination) results or based solely on the latter. The requirement for admission to vocational higher education programmes, Bachelor and integrated Master courses is the secondary school leaving examination taken – as a rule – after the completion of the 12th grade of a secondary school, certified by the *Érettségi bizonyítvány* (secondary school leaving certificate). The admission to certain programmes may also be based on health or professional requirements or aptitude tests. To Master courses students holding a Bachelor degree can be admitted. To postgraduate specialist trainings students holding a Bachelor or a Master degree may be admitted. To Doctoral courses only applicants holding a Master degree can be admitted. Higher education institutions may set additional requirements for admission to Master, postgraduate specialist and Doctoral courses.
